RE: Progress Report for December, 1994

The contract that the City Council recommended to be signed with the consultants working on the Hunaha Park Project has had a very positive impact as evidenced at the December 2010 meeting.

The 2010 Committee met on December 19, 1994 with consultants Gary Hathaway and myself to discuss the Hunaha Park Project. The Committee took several actions on the project dealing with completing the design concept and developing a budget for the project. They also set work objectives for the consultants which will be reviewed over the next 45 days by the committee. Among the issues discussed were expanding the scope of the project, looking at more open and flexible park design, bringing the park into a regional river restoration effort, and planning a larger second phase of the project. The committee plans on having the work completed by mid-February.

Last month I distributed a copy of the updated Strategic Plan developed by the 2010 Committee. While the Elgin City Council approved an earlier draft of the document, I am requesting the City again approve and accept the updated strategy as its long range plan for economic development. I will be making this same request this month to the Elgin Parks and Recreation Board, Elgin School Board, Elgin Chamber of Commerce, and Elgin TV Association.

The next 2010 Meeting will be at the Elgin School District office Building at 111 S. 15th Street, 7:00 pm on Monday January 18, 1994. You are encouraged to attend.
